Living Green

With the importance of environmental preservation in the spotlight, corporate social and environmental responsibility has gained energy and taken on new relevance. The business community has an unprecedented opportunity to demonstrate leadership by setting a positive example for employees, patients, and the community.

So, the real question then becomes: can your business "go green?"

The answer? Yes.

And the best part? It's probably easier than you think!

By partnering with TCR Services, it's now easier than ever for businesses to make decisions that reduce their impact on the environment. Our Living Green Initiative gives your company the ability to make Green initiatives a priority, while modeling corporate social and environmental responsibility to your local San Diego community.

At TCR Services, we make it easy for businesses to become greener by offering remanufactured printer cartridges at unbelievable rates, recycling used printer cartridges, and promoting usage reduction of petroleum and other natural resources.

Why Choose TCR Services Living Green Initiative?

Our participating clients receive:

- \$1 donated to their favorite charity for each cartridge they purchase
- From first print to last, every cartridge is covered by a 100% guarantee
- Pricing discounts on remanufactured and OEM toner cartridges, including service and repair (optional)
- Free pickup of empty cartridges, and a cash back cartridge recycling program
